XP.css	XP.css is an extension of 98.css. A CSS library for building interfaces that look like old UIs.
Framework7	Framework7 - is a free and open source framework to develop mobile, desktop or web apps with native look and feel.
Hint.css	A pure CSS tooltip library for your lovely websites.
imagehover.io	Pure CSS Image Hover Effect Library
mini.css	A minimal, responsive, style-agnostic CSS framework
Tachyons	Create fast loading, highly readable, and 100% responsive interfaces with as little css as possible.
Material Bootstrap	Material Design with Bootstrap
Ivory	A modern CSS framework for developing powerful web interfaces faster and easier
Halfmoon UI	A responsive and lightweight framework, designed for quickly building beautiful dashboards and product pages.
Metro 4	Create your site quickly and effectively with Metro 4. impressive components library built on html, css, javascript.
css-doodle	A web component for drawing patterns with CSS
latex.css	Make your website look like a LaTeX document
Paper CSS	Front-end printing solution
Windi CSS	Next generation compiler for Tailwind CSS
Cirrus CSS	A component and utility centric SCSS framework designed for rapid prototyping.
Gutenberg	Modern framework to print the web correctly.
lit	World's smallest responsive fire css framework (395 bytes).
Arwes	Arwes is a web framework to build user interfaces based on futuristic science fiction designs, animations, and sound effects.
Bojler	Bojler is an email framework for developing responsive and lightweight email templates that will render correctly across each of the most popular email clients.
Tacit	Primitive CSS Framework for dummies, without classes.
Terminal CSS	A modern and minimal CSS framework for terminal lovers.
Sakura	A minimal classless css framework / theme.
PSone	PS1 style CSS Framework, inspired by NES.css.
Marx	Marx is the classless CSS reset to be used in any projects (namely small ones).
Tufte	Style your webpage like Edward Tufte's handouts.
Axentix	Axentix is an open source Framework based on CSS Grid using HTML, CSS and JS.
Raster Simple Grid System	Minimal and straight-forward CSS grid system utilizing descriptive HTML rather than semantic CSS.

Website	Description
flowrft	Flowrft is a library made of beautifully designed Tailwind CSS UI blocks.
twind	The smallest, fastest, most feature complete tailwind-in-js solution in existence
Pico.css	Elegant styles for all natives HTML elements without .classes and dark mode automatically enabled.
clay.css	Extensible and configurable micro CSS util class and SASS mixin for adding claymorphism styles to your components.
BeerCSS	Build Material Design interfaces in record time, without stress for devs 🍺 . The first CSS framework that implements Material Design 3.
UnoCSS	UnoCSS is the instant atomic CSS engine, that is designed to be flexible and extensible. The core is un-opinionated, and all the CSS utilities are provided via presets.
Neptune CSS	Neptune CSS is a lightweight CSS framework. Use it to develop your websites faster.
StyleX	StyleX is a simple, easy-to-use JavaScript syntax and compiler for styling web apps.

[↑ Back To Top](#)

CSS Methodologies

CSS methodologies to help write modular, reusable and scalable code

Website	Description
OOCSS	OOCSS concepts help us write components that are flexible, modular and interchangeable.
Atomic CSS	Atomic CSS is the approach to CSS architecture that favors small, single-purpose classes with names based on visual function.
BEM	Block Element Modifier is a methodology that helps you to create reusable components and code sharing in front-end development.
SMACSS	SMACSS is a way to examine your design process and as a way to fit those rigid frameworks into a flexible thought process.
CUBE	CUBE CSS is a CSS methodology that's orientated towards simplicity, pragmatism and consistency.

[↑ Back To Top](#)

CSS Animations

CSS animations to build awesome animations for websites and applications

Website	Description
Animate.css	Just-add-water CSS animations
Bounce.js	Bounce.js is a tool and JS library that lets you create beautiful CSS3 powered animations
Anime.js	Anime.js (/ˈæn.ə.meɪ/) is a lightweight JavaScript animation library with a simple, yet powerful API. It works with CSS properties, SVG, DOM attributes and JavaScript Objects
Magic Animations	Animations has been one of the most impressive animation libraries available
Zdog	Round, flat, designer-friendly pseudo-3D engine for canvas & SVG
CSShake	CSShake delivers exactly what it says on the box — a CSS library designed specifically for shaking elements within your web page
Hover.css	Hover.css is a CSS animation library designed for use with buttons and other UI elements in your website
AniJS	AniJS is an animation library that allows you to add animations to elements in a simple 'sentence-like' structure
Animista	CSS Animations On Demand
Tachyons-animate	Tachyons itself is an atomic CSS library with a ton of utility classes for essentially designing anything by adding classes to what you need

Website	Description
Sequence.js	Sequence.js is a JavaScript library that provides a responsive CSS framework for creating unique sliders, presentations, banners, and other step-based applications
Infinite	These animations, like rotations and pulses, that are specifically designed to run and repeat forever
OBNOXIOUS.CSS	Animations for the strong of heart, and weak of mind
MOTION UI	A Sass library for creating flexible CSS transitions and animations
Keyframes.app	A graphical user interface for generating custom CSS keyframe animations
thoughtbot	CSS Transitions and Transformations for Beginners
SVG Artista	A useful tool to animate stroke and fill properties in SVG images with plain CSS code
AnimXYZ	AnimXYZ helps you create, customize, and compose animations for your website. Built for Vue, React, SCSS, and CSS
Whirl	CSS loading animations with minimal effort!
Hamburgers	Hamburgers is a collection of tasty CSS-animated hamburger icons. Also included is the source as a Sass library. It's modular and customizable, so cook up your own hamburger.
CSS Loaders & Spinners	This is a library having a collection of different types of CSS loaders, spinners
Motion One	A new animation library, built on the Web Animations API for the smallest filesize and the fastest performance.
pocoloco	Generate dynamic backgrounds for your website
AniX	Super easy and lightweight css animation library.
AOS	Animate On Scroll Library.
Animatopy	Just-add-water CSS animations snippets

[⬆ Back To Top](#)

Javascript Animation Libraries

javascript animations libraries to build awesome animations for websites and applications

Website	Description
Greensock	A JavaScript library for building high-performance animations that work in every major browser
Velocity.js	Velocity is a lightweight animation engine with the same API as jQuery's \$.animate()
lax.js	Simple & light weight vanilla javascript plugin to create smooth & beautiful animations when you scroll!
Rellax.js	A buttery smooth, super lightweight, vanilla javascript parallax library
three.js	An easy to use, lightweight, 3D library with a default WebGL renderer.
Atropos	Atropos is a lightweight, free and open-source JavaScript library to create stunning touch-friendly 3D parallax hover effects.
wow.js	Reveal Animations When You Scroll.
chocolat.js	Free lightbox plugin.
Animate On Scroll	Animate on scroll library to reveal animations when You scroll.
Tilt.js	A tiny requestAnimationFrame powered 60+fps lightweight parallax hover tilt effect for jQuery.
Roughnotation	Rough Notation is a small JavaScript library to create and animate annotations on a web page
tsParticles	A lightweight library for creating particles, an improved version of the abandoned and obsolete particles.js
Particles.js	A lightweight JavaScript library for creating particles
mo.js	The motion graphics toolbelt for the web
Lightbox2	A small JS library to overlay images on top of the current page.

Website	Description
Slick	Fully responsive carousel
barba.js	Create fluid and smooth transitions between your website's pages.
Locomotive Scroll	A simple scroll library that provides detection of elements in viewport & smooth scrolling with parallax.
Owl carousel	Free responsive jQuery carousel
Swiperjs	Free, Open Source, Modern Slider without jQuery. Available for Vanilla JS and all modern frameworks like React, Vue, Angular etc.
Splide	Free, pure JS library for carousels and sliders
Simple Parallax	The easiest way to get a parallax effect with javascript
KUTE.js	KUTE.js is a JavaScript animation engine for modern browsers.
Granim.js	Create fluid and interactive gradient animations with this small javascript library.
Popmotion	Simple animation libraries for delightful user interfaces.
Vivus	Vivus is a lightweight JavaScript class (with no dependencies) that allows you to animate SVGs, giving them the appearance of being drawn.
Typed.js	A JavaScript Typing Animation Library.
Progress Bar.js	Responsive and slick progress bars with animated SVG paths.
Midnight.js	Midnight.js lets you switch fixed headers on the fly
Tingle.js	Tingle is a simple modal plugin written in pure JavaScript
Theatre.js	Theatre.js is a JavaScript animation library with a GUI. It animates the DOM, WebGL, and any other JavaScript variable.
splidejs	Splide is a lightweight, flexible and accessible slider/carousel written in TypeScript. No dependencies, no Lighthouse errors.
nice-waves	Beautiful animated waves
Vanta.js	Animated website backgrounds in a few lines of code.
Splitting.js	Splitting creates elements and adds CSS variables to unlock amazing possibilities for animating text, grids, and more!

[↑ Back To Top](#)

Javascript Chart Libraries

Libraries that help developers visualize data into charts

Website	Description
ChartJS	Simple yet flexible JavaScript charting for designers & developers
FrappeJS	Includes Green squares grid like in GitHub, and other charts to use.
G2Plot	G2Plot is an interactive and responsive charting library based on the grammar of graphics.
Google Charts	Get the experience from Google to create similar charts that Google uses.
Data Driven Documents (D3)	Bind complicated and massive data to interactive graphs.
ApexCharts.Js	Modern & Interactive Open-source Charts
Chartist	Simple responsive charts
Vizzu	Vizzu - a free, open-source Javascript library for building animated charts, data stories, and interactive explorers.
AntV	Ant Design Charts, free JS Charts library for dynamic data with excellent documentation

Website	Description
Nivo	Nivo provides supercharged React components to easily build dataviz apps, it's built on top of d3. Also comes with server side rendering ability and fully declarative charts.
Echarts	An Open Source JavaScript Visualization Library with declarative syntax for Rapid Construction of Web-based Visualization

[↑ Back To Top](#)

UI Components & Kits

Not quite "frameworks", but tools for creating user interfaces with components or UI kits

Website	Description
Bit	Provides a huge library of reuseable UI Components for React, Angular, Vue, React Native. Also can be used for sharing UI Components among other team members
UILang	A minimal, UI-focused programming language for web designers
Medialoot CSS Components	Calendars, price grids and other UI components
Froala Design Blocks	Over 170 responsive design blocks ready to be used in your web or mobile apps
Flowbite	Open-source library of Tailwind CSS components
daisyUI	Tailwind CSS Components
Mui Treasury	An open-source project that provides a collection of ready-to-use components based on Material-UI.
Material Design For Bootstrap	Open source toolkit for building material design with Bootstrap
Photonkit	Desktop UI library for Electron
Flat UI	Minimal free user interface kit
Shards	A free and modern UI toolkit for web makers based on Bootstrap
Themesberg	Free and open-source website themes, templates, and UI kits based on Bootstrap and React
Creative Tim	All types of UI libraries and kits including JS frameworks like React
Brumm Shadow Maker	An online tool to make css shadows
AdminLTE	Best open source admin dashboard & control panel theme
SpinKit	Simple CSS Spinners
Epic Spinners	CSS spinners collection with Vue.js integration.
Loading.io	Online service provider for creating simple animations, spinners, progress bar and more
Moving Letters	Animated Text with JavaScript and anime.js
CSS Layout	A collection of popular web layouts and patterns in pure CSS
CSS Grid Generator	An open-source project that allow users to quickly create dynamic layout based on CSS Grid.
HTML Table Generator	Create semantic, responsive & accessible HTML tables to represent your tabular data. Set CSS properties, generate the code and copy & paste into your project.
Codyhouse	Kick-start your web projects with CodyHouse's front-end framework and library of accessible HTML, CSS, JavaScript components
Tailwind Starter Kit	Tailwind Starter Kit a beautiful extension for TailwindCSS, Free and Open Source
Tailwindtoolbox	Open source starter templates and components, a plugins directory and useful tools/utilities to kick start your Tailwind CSS project.
tailwindcomponents	A free repository for community components using TailwindCSS
sweetalert	SweetAlert makes popup messages easy and pretty.
sweetalert2	A beautiful, responsive, customizable, accessible replacement for javascript's popup boxes
tailblocks	Open source ready-to-use Tailwind CSS components.

Website	Description
Fast	An interface system that can be used with modern Web Frameworks such as React, Vue and Angular.
LottieFiles	Interactive animations in many formats like json,gif and mp4, libraries and plugins for Web & Mobile .
Kutty	A set of accessible and reusable prebuilt Tailwind components that are commonly used in web applications.
Tailwind Templates	A free collection of Tailwindcss Templates - tailwind components for rapid UI development.
Stitches	An HTML template generator using functional css.
Meraki UI Components	Beautiful Tailwindcss components that support RTL languages & fully responsive based on Flexbox & CSS Grid.
Daemonites Material Design For Bootstrap	Daemonite's Material UI is a cross-platform and fully responsive front-end interface based on Google Material Design developed using Bootstrap 4
Stitches	CSS-in-JS with near-zero runtime, SSR, multi-variant support, and a best-in-class developer experience.
Headless UI	Completely unstyled, fully accessible UI components, designed to integrate beautifully with Tailwind CSS.
Styled components	Build beautifully UI Components, for your applications & websites.
Figma Bootstrap 5 UI Kit	UI Kit comprising 300+ organized Bootstrap 5 components built with atomic design system & auto layout.
Notiflix	JavaScript library for client-side non-blocking notifications, popup boxes, loading indicators, and more that makes your web projects much better
CoreUI	Bootstrap Admin Dashboard Template & UI Components Library
AgnosticUI	Accessible React component primitives that also work with Vue 3, Svelte, and Angular
SVGR	SVGR is an universal tool to transform a raw SVG into a ready-to-use React components. Available online, in CLI, Node.js, as a webpack/rollup/parcel plugin...
uiverse	Hundreds Open-Source UI elements, made with HTML & CSS. Anyone can contribute. Includes buttons, checkboxes, spinners, cards, inputs and more.
HyperUI	Free open source Tailwind CSS components for marketing and ecommerce websites, as well as application UI.
Flowbite Admin Dashboard	Free and open-source admin dashboard template built with Tailwind CSS and Flowbite featuring 15 examples pages, charts, widgets, and dark mode.
Wicked Blocks	A free collection of Tailwind blocks & components
Mamba UI	Mamba UI is a free, open-source collection of UI components and templates based on Tailwind CSS.
Kitwind	Fully responsive UI kits, built with Tailwind CSS.
DevUI	Free and Open-Source UI Components for Maximum Productivity.
Tail-Kit	Tail-kit gives you access to over 250 free components and free templates, based on Tailwind CSS 3.0.
Float UI	Free and open-source UI components and website templates using Tailwind CSS
Konsta UI	Pixel perfect mobile UI components built with Tailwind CSS
React Native Gifted Chat	A chat UI component that offers a ready-to-use chat interface with features like message bubbles, input toolbar, and more.
Wind UI	Expertly made, responsive, accessible components in React and HTML ready to be used on your website or app.
Sonner	An opinionated toast component for React.
Pines	Pines is a library of animations, sliders, tooltips, accordions, modals, and more! It's a set of UI elements that can be copy and pasted into any Alpine and Tailwind projects.
Kuma UI	With Kuma UI's headless, zero-runtime UI components, build top-performing websites effortlessly, while enjoying the best developer experience. Say hello to the future of CSS-in-JS.

Website	Description
Preline UI	Preline UI is an open-source set of prebuilt UI components based on the utility-first Tailwind CSS framework.

[↑ Back To Top](#)

React UI Libraries

UI and component libraries for the React JavaScript framework

Website	Description
Material UI	React components for faster and easier web development, based on Material Design
Chakra UI	Build accessible React apps & websites with speed. Openchakra
React Bootstrap	Bootstrap rebuilt for React. Include Bootstrap components right in your JavaScript
Semi Design	A modern, comprehensive, flexible design system that gives you all modular blocks you need to build sensible web apps & SaaS products.
Mantine	React components and hooks library with native dark theme support focused on usability, accessibility and developer experience.
NextUI	Beautiful, fast and modern React UI library that allows you to create beautiful websites regardless of your design experience.
Arco Design	A comprehensive React UI components library based on the Arco Design system.
ui-playbook	The documented collection of UI components
ReactStrap	Another Bootstrap UI library for React
React Admin	A frontend Framework for building admin applications. Supports API's out of the box
BlueprintJS	React-based UI toolkit for the web
React Semantic UI	UI components based off of the Semantic UI framework
Shards React	React UI kit featuring a modern design system with dozens of custom components
React Virtualized	UI set for data. Includes tables, lists, sorting, etc.
React Toolbox	Material design UI library for React
Elastic UI	Distributes UI React components and static assets for use in building web layouts
React Desktop	Desktop styled components in React. Includes MacOS and Windows based components
Theme UI	Build consistent, themeable React apps based on constraint-based design principles
Onsen React	Distributes Components for hybrid mobile apps with React and Onsen UI
Evergreen	Design system for React
Rebass	React primitive UI components built with styled system
Grommet	mobile first UI component library
Landing Page Template	Open source landing page template for react
Elemental UI	A UI Toolkit for React.js Websites and Apps
Ant Design	Open source design React UI library.
Bumbag	Bumbag is a friendly React UI Kit suitable for MVPs or large-scale applications.
PRIMEREACT	The ultimate collection of design-agnostic, flexible and accessible React UI Components
Primer Components	Primer Components are React components which implement GitHub's Primer Design System
Orbit	Design system and React UI components for travel projects.
Base Web	Base Web provides a robust suite of components out of the box
Backpack UI	Backpack is the Lonely Planet toolset that we use to build front end apps.
Reaviz	Data visualization library for React based on D3

Website	Description
React Suite	A suite of React components, sensible UI design, and a friendly development experience.
React Spring	Spring-physics based animation library for React applications.
Recharts	A composable charting library built on React components.
Vercel UI	Modern and minimalist React UI library
Framer Motion	A React library to power production-ready animations.
React Spectrum	A React implementation of Spectrum, Adobe's design system.
@tsparticles/react	A lightweight React component for creating particles
particles-bg	A React particles animation background component
Treact	Gallery of free and modern React templates and UI components developed using TailwindCSS as the front-end framework
OAH-Admin	a free React admin dashboard template based on Gatsby with oah-ui components and elements package.
Carolina Admin Dashboard	Free React admin template is powered by Material-UI components framework and features a clean and fresh design following Google's Material Design specifications.
Tabler	Tabler is a free React admin dashboard template ideal for any kind of back-end web application.
Sha-el-design	React components for easier customization and smooth development flow.
React-WeUI	React-WeUI made from our love of React and WeChat's WeUI Design.
Supabase UI	An open-source UI component library inspired by Tailwind and AntDesign.
Ring UI	A collection of JetBrains Web UI components.
React95	Refreshed Windows 95 style UI components for your React app.
Reakit	Reakit is a lower level component library for building accessible high level UI libraries, design systems and applications with React.
Zent	A collection of essential UI components written with React.
Gestalt	A set of React UI components that supports Pinterest's design language.
xstyled	A CSS-in-JS framework built for React with props based utilities like display, fontSize or rotate.
@use-gesture	Bread n butter utility for component-tied mouse/touch gestures in React.
React Rainbow	React Rainbow is a collection of components that will reliably help you build your application in a snap.
React Use Smooth Scroll	React Provider Component to add a smooth scroll effect
Choc UI	Choc UI is a set of accessible and reusable components that are commonly used in web applications.
Elementz	A React Component library for buliding modern applications easily & quickly.
Radix UI	Unstyled, accessible components for building high-quality design systems and web apps in React
Materio MUI React NextJS Admin Template	Most Powerful & Comprehensive Open-source MUI React NextJS Admin Dashboard Template built for developers.
Chakra Templates	A growing collection of hand-crafted & responsive Chakra UI templates ready to drop into your React project.
React Resizable Panels	React components for resizable panel groups/layouts.
Carbon React	Extensive library of React components for Websites and UI's. Based on the Carbon Design System from IBM
React Aria	A library of React Hooks that provides accessible UI primitives for your design system.
shadcn/ui	Beautifully designed components built with Radix UI and Tailwind CSS.
Tremor	React components to build charts and dashboards with
Aceternity UI	Copy paste the most trending components and use them in your websites without having to worry

Website	Description
	about styling and animations.
Magic UI	free and open-source animated components built with React, Typescript, Tailwind CSS, and Framer Motion.
100% open-source, and customizable.	

[↑ Back To Top](#)

Vue UI Libraries

UI and component libraries for the Vue JavaScript framework

Website	Description
Vuetify	Material design component framework
Bootstrap Vue	Use Bootstrap components with Vue
Buefy	Lightweight UI components based on Bulma
Semantic UI Vue	Semantic UI Vue is the Vue integration for Semantic UI
Arco Design Vue	A comprehensive Vue UI components library based on the Arco Design system.
VEUI	VEUI is an enterprise UI component library, based on Vue.js.
Grace	Design System For Vue Applications.
Quasar	High-performance Material Design component suite with builders for SPA, SSR, PWA, Mobile (Cordova & Capacitor), Desktop (Electron) and Browser extensions
Element	Desktop UI library for Vue
Fish UI	Vue UI toolkit for the web
Keen UI	VueUI library with a simple API, inspired by Google's Material Design
Materio Vuetify Vuejs Admin Template	Open-source & Easy to use Vuetify Vuejs Admin Template with Elegant Design & Unique Layout
Onsen Vue	Distributes Components for hybrid mobile apps with Vue and Onsen UI
Vuejsexamples	A nice collection of useful vuejs UI components
Inkline	Inkline is a modern UI/UX Framework for Vue.js designed for creating flawless responsive web applications
Vuesax	Unique and reusable UI components
Antdv	UI library for Vue based on Ant Design
Shards Vue	A high-quality & free Vue UI kit featuring a modern design system with dozens of custom components
Prime Vue	Powerful yet simple to use, versatile, performant Vue UI Component Library to help you build stunning user interfaces.
Chakra UI Vue	Chakra UI is a simple modular and accessible component library that gives you the building blocks to build Vue applications with speed.
View UI	Dozens of useful and beautiful Vue components made for people with all skill levels with extensive documentation.
@tsparticles/vue2	A lightweight Vue 2.x component for creating particles
@tsparticles/vue3	A lightweight Vue 3.x component for creating particles
TC Components	A library of high-quality ready to use components that will help you speed up your development workflow.
Vant	Lightweight Mobile UI Components built on Vue.
Equal UI	Open-source Vue 3 components system for your next project based on TypeScript
Mint UI	Mobile UI elements for Vue.js
Cube UI	A fantastic mobile ui lib implement by Vue.js

Website	Description
Muse UI	Based on the Vue 2.0 elegant Material Design UI component library
AT-UI	AT-UI is a modular front-end UI framework for developing fast and powerful web interfaces based on Vue.js.
VUIKit	A consistent and responsive Vue UI library, based on the front-end framework UIKit.
Wave UI	A Vue.js UI framework with only the bright side.
VueTailwind	Set of Lightview and fully customizable Vue Components optimized for TailwindCSS.
Oruga	Oruga is a lightweight library of UI components for Vue.js without CSS framework dependency.
BalmUI	BalmUI is a modular and customizable Material Design UI library for Vue.js.
Weex UI	A rich interaction, lightweight, high performance UI library based on Weex.
Varlet	Varlet is a Material design mobile component library developed based on Vue3, developed and maintained by partners in the community.
Naive UI	A Vue 3 Component Library. Fairly Complete. Customizable Themes. Uses TypeScript. Not too Slow.
Vuestic	Free and Open Source UI Library for Vue 3 🙌 .
Vue Final Modal	Vue Final Modal is a tiny, renderless, mobile-friendly, feature-rich modal component for Vue.js.
Vuetensils	Vuetensils is a lightweight component library for Vue 2.x that brings some of most common UI features, but only the bare minimum styles to avoid adding any extra bloat. You can work on the branding, and don't have to worry about the accessibility.
NuxtLabs UI	Fully styled and customizable components for Nuxt.

[↑ Back To Top](#)

Angular UI Libraries

UI and component libraries for the Angular JavaScript framework

Website	Description
Material Angular	UI library for Angular based on Material design
NG Bootstrap	UI library for Angular based on the Bootstrap framework
PrimeNG	Powerful UI component library for Angular
Onsen Angular	Hybrid mobile and PWA UI library for Angular and Onsen UI
NG Lightning	Native Angular components & directives for Lightning Design System
NG Semantic	UI library for Angular based on Semantic UI
Nebular	Customizable UI Kit, Auth & Security for Angular
Alyle UI	Minimal components set for Angular
NGX Bootstrap	Another UI library for Angular based on the Bootstrap framework
NG Zorro	UI library for Angular based on Ant Design
Pagination for datatables	npm library for pagination
Multi select dropdown	For multi select drop-down in forms
NG Particles	A lightweight Angular component for creating particles
Covalent UI	Angular UI Platform focused on solving common enterprise needs
Clarity	CSS based Angular UI framework developed by VMware group
Taiga UI	Taiga UI is fully-tree-shakable Angular UI Kit consisting of multiple base libraries and several add-ons.
ngx-admin	Admin template based on Angular 10+ and Nebular

[↑ Back To Top](#)

Svelte UI Libraries

UI and component libraries for the Svelte JavaScript compiler

Website	Description
Svelte Material UI	UI library for Svelte based on Material Design
SvelteStrap	UI library for Svelte based on the Bootstrap framework
Svelte Flat UI	UI library for Svelte based on Flat Design
@tsparticles/svelte	A lightweight Svelte component for creating particles
Attractions	A pretty cool UI kit for Svelte
Svelteit	A minimalistic UI/UX component library for Svelte and Sapper projects
Carbon Components Svelte	A component library that implements the Carbon Design System, an open source design system by IBM.
Radix Svelte	This is a port of Radix UI for Svelte.
shadcn-svelte	shadcn-svelte is an unofficial community-led Svelte port of shadcn/ui.
Skeleton	Skeleton is an open source UI toolkit built with Svelte + Tailwind that allows you to create reactive web interfaces using Svelte + Tailwind CSS.
Aceternity UI Svelte	Free Incredible Animated Components.
Svelte UX	Collection of Svelte components, actions, stores, and utilities to build highly interactive applications.
Flowbite-Svelte	Flowbite-svelte is an open-source UI component library built with Svelte components, Tailwind CSS utility classes and based on the Flowbite design system
bits-ui	The headless components for Svelte
melt-ui	A set of headless, accessible component builders for Svelte

[↑ Back To Top](#)

React Native UI Libraries

UI and component libraries for the React Native Framework

Website	Description
Magnus UI	Magnus UI is the ultimate UI framework that helps you in building consistent user interfaces effortlessly in react native
React Native UI Lib	React Native UI (RNUI) is a UI Toolset & Components Library for React Native from Wix
React Native Paper	React Native Paper is a high-quality, standard-compliant Material Design library that has you covered in all major use-cases
UI Kitten	UI Kitten is React Native framework for creating stunning cross-platform mobile applications. Design system based, brings your product from MVP to enterprise.
React Native Elements	Cross Platform React Native UI Toolkit that provides an all-in-one UI kit for creating apps in react native.
NativeBase	Essential cross-platform UI components for React Native & Vue Native.
Shoutem UI	Shoutem UI toolkit enables you to build professionally looking React Native apps with ease.
tailwind-rn	Use Tailwind CSS in React Native projects.
Ant Design Mobile RN	An Ant design based configurable Mobile UI component library based on React Native.
SnackUI	SnackUI is a UI Kit for React Native + react-native-web that's much faster rocket with an optimizing compiler.
Moti	Moti is the universal animation package for React Native
Tamagui	Universal React design systems that optimize for native & web.

Design Systems & Style Guides

Design systems, style guides, toolkits, docs. Some of these are design guides for top companies/websites

Website	Description
Material Design	Google's Material Design
Ant Design	Design system for enterprise-level products
Apple Design Resources	Guides and templates for using Apple design and UI
Primer	Design, build, and create with GitHub's design system
Arco.design	An enterprise-level design system jointly launched by the Bytedance GIP UED team and the architecture front-end team.
Alta UI	Oracle's design system and toolkit
Pulse	Design system, guides and React component library
Bolt	Robust Twig and web component powered UI components
Clarity Design System	UX guidelines, HTML/CSS framework, and Angular components
AtlasKit	Atlassian's official UI library, built according to the Atlassian Design Guidelines
Audi Design Resources	Audi UI design system and toolkit
Carbon Design Systems	Carbon is IBM's open-source design system for products and experiences
Yelp Style Guide	Yelp style guide, components and toolkit
Comet	Scalable design system of visual language, components, and design assets
ETrade Design System	Guides and toolkits that blend finance with simplicity and ease of use
Fundamental Library	Open source and community driven project for consistent user interfaces
Infor Design	Guidelines and resources to create meaningful experiences for Infor's products
Lexicon	An experience language for crafting beautiful UI
Mailchimp UI/UX	Style guide and components from Mailchimp
Marvel Style Guide	Set of design principles and components
Microsoft Fluent UI	Collection of UX frameworks from Microsoft
Pluralsight Design System	Design guide with components for designing with Pluralsight
Polaris	Design system that creates great experiences for all of Shopify's merchants
Mozilla Protocol	Protocol is a design system for Mozilla and Firefox websites
SendGrid Style Guide	UI library for developing consistent UI/UX at SendGrid
VTEX Styleguide	Reusable patterns, components and assets related to product design in VTEX
Rizzo	Style guide with UI components, JS components, widgets, etc
Atomize	UI framework that helps developers collaborate with designers and build consistent user interfaces effortlessly
StyleGuides.io	A directory of 500+ styleguides
Done Design System	Open source design system, guides & components
Skoda Brand System	Design guideline for developing applications under the Skoda brand
Spectrum	Adobe's design system that provides components and tools to help product teams work more efficiently, and to make Adobe's applications more cohesive.
Asphalt	Gojek's design language system. A collection of guidelines and components to create amazing user experiences.
Laws of UX	A collection of the key maxims that designers must consider when building user interfaces.

Website	Description
Checklist Design	Checklist Design is a curated list of checklists ranging from website pages, to UI components, all the way to branding assets.
Humane By Design	A resource that provides guidance for designing ethically humane digital products through patterns focused on user well-being.
Pr1mer Guidelines	An open source set of very general guidelines, inspired by Human Interface. Created and maintained by Pr1mer Tech
Patterfly	PatternFly is an open source design system from Red Hat, Inc.
Patterns	A resource to improve on design patterns and component patterns for building powerful web apps with vanilla JavaScript and React.
Design Principles For Developers	A resource to improve Design principles and guidelines for developers.

[↑ Back To Top](#)

Online Design Tools

All kinds of online tools for design, from photo editors to wireframing, and more

Website	Description
Figma	Online graphic design tool (Free & paid options)
Penpot	Penpot is the first Open Source design and prototyping platform meant for cross-domain teams. Non dependent on operating systems, Penpot is web based and works with open web standards (SVG). For all and empowered by the community Open Source and selfhostable
Vectr	Free vector graphics software
Taler	Create social media banner designs in minutes from hundreds of customizable templates
Canva	Create beautiful designs (Free & Paid)
Get Waves	A free SVG wave generator to make unique SVG waves for web design
Clippy	Easy CSS clip-path maker
Fancy Border Radius	Eight values specifying border-radius in CSS (border-radius generator)
Wireframe.cc	Wireframing tool (free & paid)
Fotor	Photo editor and design maker
Pixlr	Online photo editor
Animoto Video Maker	Make videos online
RemoveBG	Remove image backgrounds
Photo Creator	Create your own photos instead of searching for stock
Visme	Create presentations, infographics and more
Infogram	Create infograms
ChartGo	Create charts and graphs online
Cartoon Photo	Turn photos into cartoons
Whimsical	Wireframes, diagrams and more (4 free)
Whiteboard	Online drawing tool
